OVERVIEW OF THE DAY

Science Dome: Experience space exploration and real data terrain from Mars and the Moon, with half-hour shows in an immersive full dome 360-degree experience.

National Marine Aquarium: Experience a Virtual Dive in one of their tanks, allowing participants to experience life underwater on the Great Barrier Reef as well as the Atlantic Ocean!

Higher Beings Circus Skills: Circus skills workshops will be taking place on the Piazza and one in the Play Zone on Guildhall Square. One for under 8s and one for over 8s, running alongside each other.

Council House Guided Tours: The Council House has opened its doors to the public for guided tours by the Lord Mayor's Macebearers. (Need to be booked in advance via Eventbrite).

Stage & Piazza: The stage programme, hosted by Radio Plymouth, will feature dance performances and musical groups throughout the day. The Piazza will host a variety of activities including Titan the Robot, circus skills, virtual reality and much more!

Community Stalls: Located on New George Street, Cornwall Street and Armada Way.

Food & Craft Markets: There will be a number of food and craft stalls located on Armada Way, from selling delicious fudge to handmade jewellery.

PLANET TRAIL

Sponsored by Plymouth City Centre Company

Use the map to find the planet trail boards hidden throughout the city centre! Find them all to discover the answers to the questions below, then complete the form and post your finished leaflet in the box at the Creation Station activity area on the Piazza. Prizes up for grabs include a Kindle Fire kids tablet and Motion Control drones! Winners will be contacted after the event. (Only fully completed entries will be considered. One entry per person).

The trail is only running on the 25 May, between 9.30am and 4pm.

1. How many light minutes away is Mercury from Earth?

2. What is the average temperature of Venus?

3. What is the nickname of Earth?

4. What is the name of the element in Mars' atmosphere?

5. What is the volume size of Jupiter in relation to Earth?

6. How long does it take for Saturn to complete a full orbit of the Sun?

7. How many moons does Uranus have?

8. What is the distance from Neptune to Earth?
