

Destination Plymouth

Food & Drink Supplier Membership

Destination Plymouth is a not-for-profit destination management organisation for Plymouth and surrounding area. We are the number 1 organisation connecting with hospitality and tourism organisations in the city.

As part of Plymouth's commitment to becoming a more sustainable city, we are supporting sustainable food sources and providing opportunities for local suppliers to engage with city businesses to encourage reduced food miles and celebrate the fantastic produce on our doorstep. One thing visitors remember about their holiday is the food, and we want to make sure Plymouth and the surrounding areas produce is at the heart of it.

Committing to a supplier membership opens up a host of benefits through engaging with our national and international marketing campaigns, PR, travel trade and events.

The Visit Plymouth website had 1.9 million website views in 2021 with our most frequent website users in Plymouth, London, Exeter and Bristol. Our consumer e-newsletter has a growing database of 9K subscribers, and our social media channels have a following of 80K+ across Visit Plymouth and What's On Plymouth channels. All of which can be utilised through the Food & Drink suppliers membership.
